

If *God*
brings you to it,
He
will see you through it.

It seems to me that we must be on our third winter by now, and it has certainly overstayed its welcome! Spring has been very much anticipated, so now it's great to have some warmer weather. We have lots of events to look forward to this merry month of May! Please see our monthly calendar for Track & Field dates, Provincial Exam dates for grades 6 & 9, and for special events dates like Confirmation Retreat and Trickster Theatre!

We have some great news to share...we will be adding two new modulars to our grades 1 and 2 wing! We hope to see preparation for this beginning soon. This addition will also include washrooms. With our steadily growing population, we are very excited!

We will be offering our Grade 9 Information Night on Wednesday, May 23rd. We hope to provide clarification on courses your child may want to enroll in. On Thursday, May 24th, we will have our Senior High Information Night. This evening will help clarify graduation requirements and post-secondary expectations. We will be able to answer questions and help you and your child select courses for next year. Junior High Course selection sheets will be going home for signatures in early June.

We continue to focus on May and June, while we begin to look at what the 2018-2019 school year will look like. Thank you to for your continued support, and with all the spring activities coming, we look forward to seeing you around the school!

God Bless.
